### **When are 2010 *Prom Short Sweet Sessions* available?**

May 14th and May 15th - 9 am to 6 pm. You might consider early in the day appts immediately after hair and make-up is done before getting together with everyone else. We have a dressing room so you can bring everything for your photos and then change back to your normal clothes so you don't have to worry about getting wrinkled until later. Guys sessions can be done in the morning hours while the girls are at the salon.

### **How are large groups handled?**

You can book a Prom Short Sweet Session for a large group and we will offer as much variety as we can make happen in the 15 minutes allotted - the group as a whole, all the girls together, and all the guys together but breakouts to the couple and individual level need to have additional slots booked.

### **What if we want a large group photo and individuals photographed separately?**

Book a slot for the large group and then book slots for the appropriate number who want their own personal session(s). For example you have a limo of 20 kids, you want one large group session of everyone and four of the girls want to have a second session done - book two slots. From the large group we will do everyone as a group, all the girls together and all of the guys together. From the 4 girl session we will photograph all four girls together, each one individually and if they want, in sets of two - but only these four girls can be photographed during their allotted time - no switching out of people allowed.
